MARYLAND HISTORICAL TRUST
INTERNAL NR-ELIGIBILITY REVIEW FORM

Property/District Name: Cooper - Garvin House Survey Number: T-865
Chickens Point Road, Tilghman Island, Talbot Co.
Project: Bridge No 20001, RD 33 over Knapps Narrows from Agency: SHA
Willey Road to 2000 North of Knapps Narrows
Site visit by MHT Staff: no yes Name Orlando Rideout Date _____

Eligibility recommended Eligibility not recommended _____
Criteria: A B C D Considerations: A B C D E F G None

Justification for decision: (Use continuation sheet if necessary and attach map)

The Cooper - Garvin House is eligible under Criterion C for architecture. One of a group of approximately nine remaining houses of a unique quarter-circle plan found in a small area of Talbot County, these houses are believed to be the work of James Cooper, a local builder who was extremely active in the building boom which took place on Tilghman Island at the turn of the century. The inventive design utilizes simple materials and forms to create a house that has unusual presence. The Cooper - Garvin House is also of interest as apparently having been built for Alexander Cooper, the brother of James Cooper.

Documentation on the property/district is presented in: Review + Compliance Files

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

The Alex Cooper house is located on the north side of Chickenpoint Road in the village of Tilghman on Tilghman Island, Talbot County, MD. This house, one of the Island's six remaining "W" facade houses, is really an ell with a central, two-story, projecting bay. The house faces south with one wing of the ell extending to the southwest, and the other wing extending to the southeast.

This two-story, frame house is clad in yellow weatherboard and has an asphalt shingle roof. The foundation is supported by low, brick piers.

The south (main) facade has a three-sided, central, projecting bay. The central panel of this three-sided bay is an entrance door with sidelights and a four light transom. The two remaining sides have narrow one-over-one sash windows with wide surrounds and peaked crown mouldings. This central bay is flanked by two-over-two sash windows with peaked crown mouldings and louvered shutters. A one-story porch supported by square posts follows the curvature of the central bay. The second story fenestration is identical to that of the first story except that the first floor entrance door is replaced by a one-over-one sash window on the second floor. The gable roof over the central, projecting bay breaks back towards the roofline of the house rather than forming a perfect triangle. A vent with a peaked crown moulding is set into this cross gable. Two interior brick chimneys flank the central, projecting bay.

The southwest gable end has one one-over-one sash window on the first floor and one two-over-two sash window on the second floor. Both windows have louvered shutters.

The northwest elevation is three bays with a two-story, central, projecting bay capped with a gable roof. The first floor of this elevation has a shed roof addition across its two eastern bays. This unfinished addition is mounted on cinderblocks and connected by a breezeway to a one-story, gable roofed building also unfinished and mounted on cinderblocks. The first floor western bay is lit by one two-over-two sash window. The second floor of the primary structure's northwest elevation has a central one-over-one sash window flanked by two two-over-two sash windows with peaked crown mouldings. There are no shutters on the northwest side.

8. Significance

Prepare both a summary paragraph of significance and a general statement of history and support.

The Alex Cooper house was built for Mary Lou and Alex Cooper around the 1890s. Alex Cooper operated a buy boat and would travel to North Carolina for inexpensive lumber. James Cooper, a well-known Tilghman carpenter at that time, was Alex Cooper's son-in-law. It is unclear whether this James, or Jim, Cooper built the house.

In 1925 the title to the property passed from the Cooper family to Luther Garvin who boarded fishing parties there in the summertime. The property was again sold in 1933 to Jan G. Reese and in 1967 to Herman E. and Margaret Ann Lednum. In 1970 Buddy and Roberta Harrison purchased the property. They are currently renovating the unoccupied building.

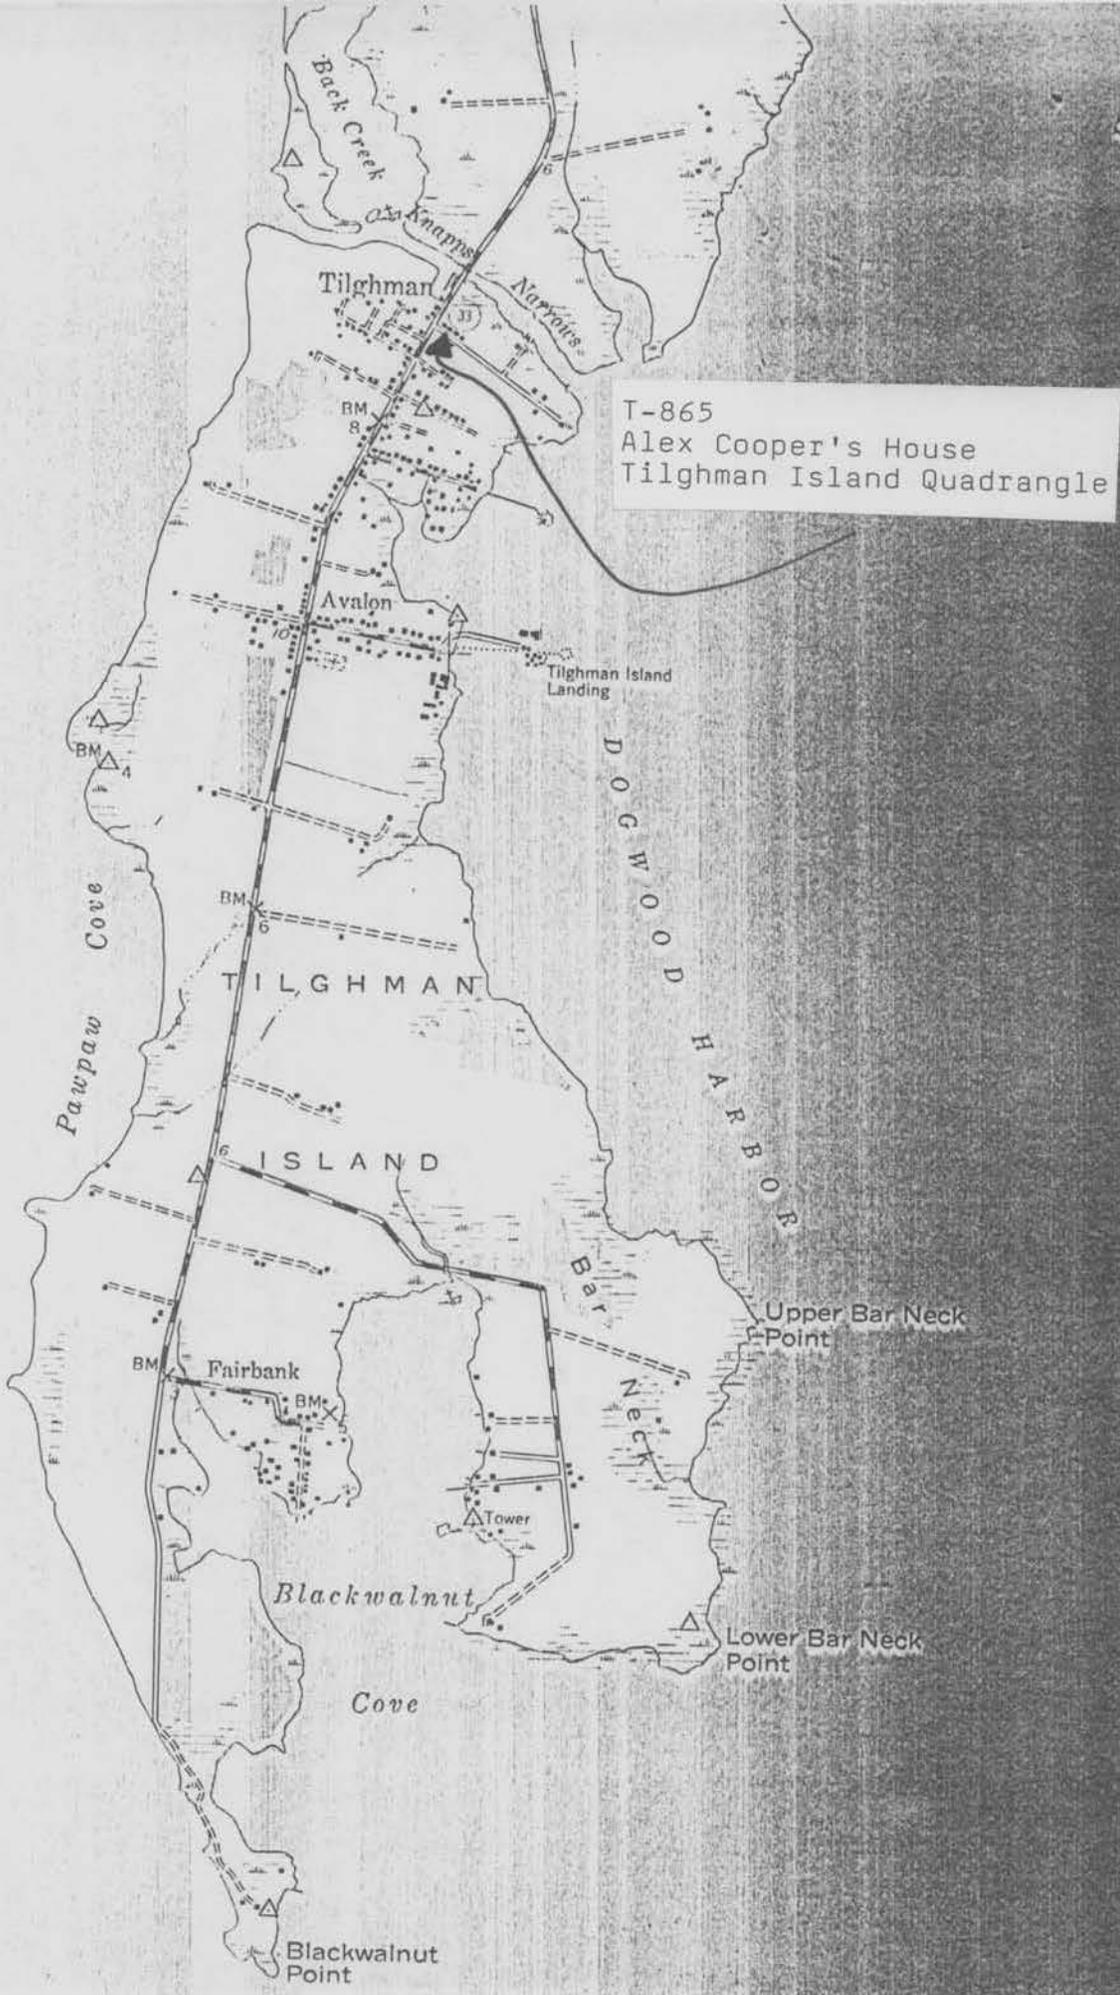

The Alex Cooper house is one of six remaining "W" facade houses on the Island. This house and the greatly dilapidated Willey Boarding house are the northernmost examples of this plan in the village of Tilghman.

Alex Cooper House description continued.

The northeast elevation has one one-over-one sash window as the eastern bay and a pair of one-over-one sash windows as the northern bay of the first floor. The second floor is lit by two two-over-two sash windows. These windows have peaked crown mouldings, and no shutters.

The southeast gable end has one shuttered, two-over-two sash window on both the first and second floors.

The interior was not seen.
