DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE	
<p>This house is located on the west side of Keiffer-Funk Road about one mile south of Chewsville in Washington County, Maryland. It is situated on level ground and faces east.</p> <p>The structure is a two-story, four-bay brick dwelling, painted white with black trim. A two-story, two-bay brick el extends to the rear or west of the main section.</p> <p>The walls are set on low fieldstone foundations. Bricks in the front section of the house are set on all stretcher bond and reportedly cover an earlier log structure. The walls of the rear projection are laid in all common bond. Brick corbels finish the eaves of the el.</p> <p>Windows are grouped toward the south end of the front or east elevation. The openings have simple, narrow frames which fold six-over-six pane double-hung sashes. Wide wooden lintels are present over the windows. Three-panel shutters flank the first story openings while those at the second story have louvered shutters.</p> <p>The main entrance is located in the third bay from the south end of the front elevation. The entrance is trimmed with a modern broken pediment with a finial. Above the six-panel door is a diamond pane transom. Other entrances are located at the north elevation of the front section and at the north and south elevations of the rear el.</p> <p>The roofing material is sheet metal. The roof structure extends beyond the end walls of the building and is finished with molded trim on the barge board and the returns. Brick chimneys are located inside each gable end, the largest being within the north gable of the main section.</p> <p>A small stone building just behind the main house has been partially rebuilt. Constructed of local fieldstones, it is two bays in length with a deep overhanging roof along its front elevation. A barn is located northeast of the house.</p> <p>The structures are in excellent condition and are located on a tract containing 4.50 acres.</p>

STATEMENT OF SIGNIFICANCE			
<p>The area of significance of this house is its architecture. Although its construction date is not known, exterior detail and trim is of a type usually associated with the third quarter of the 19th century. Apparently an earlier log structure, the front section of the present house, was encased with brick about that time. The use of log is worthy of note as it was a major building material in Washington County from the earliest days of settlement to late in the 19th century. Many such structures are still in use today covered with various forms of siding or bricks.</p> <p>An 1859 map of Washington County depicts a dwelling at this location with the owner listed as H. Bovey. According to Washington County land records, Henry Bovey acquired the property in 1848 from Henry Rinehart. Rinehart purchased the property in 1827 from Gabriel Billmire who purchased the land from John Wolfenberger in 1822. The property was in the Bovey family until 1905.</p>			
DEED RECORDS			
Liber 538, Folio 379, December 28, 1971 Grantors: Jack H. Beachely & Louise F. Beachley Grantees: Robert E. Liichow & Mildred H. Liichow 4.5 acres.
