DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This farm complex is located on the north side of Maryland route 58, the Cearfoss Pke, west of Salem Road in Washington County. The house and barn are located on high gently sloping ground and face southeast.

The house is a two and one half story, three bay structure built of brick and resting on fieldstone foundations which become almost a full story in height at the front elevation. The brick walls have been painted red. Part of the front elevation is recessed beneath a double porch which is included under the main roof span. The bricks forming the front wall were laid in Flemish bond while other elevations display American or common bonding. A two story, two bay wing extends to the rear.

Windows have narrow frames which hold single pane double hung sashes. Wide wooden lintels are present above the windows and doors. Some windows retain hinge pins for shutters. A pair of two panel shutters remains in a foundation window.

Entrances are located near the south corner of the front elevation and in the recessed portion of the front wall running perpendicular to the main span. The double porch is supported by chamfered square posts between which runs a balustrade. A one story porch continues along the southwest elevation.

The roof is sheathed with sheet metal and extends beyond the end walls of the house. Brick chimneys are located inside the end walls. Just south of the house is a large frame bank barn resting on fieldstone foundations. Other farm buildings are located nearby.

The structures appear to be in good condition and stand on a tract containing 97.50 acres.
