

ABSTRACT

WA-I-489

MASON-DIXON LINE: MILESTONE NO. 108(112)

1767 (reset 1902)

Fairview, Maryland vicinity

Public/private

Milestone No. 108(112) marks Mason and Dixon's 108th horizontal mile west of the northeast corner of Maryland, the beginning of their 230.228-mile West Line, later known as the Mason-Dixon Line, famous for its historical impact and innovative survey methods. It is an original milestone of 1767, quarried and carved in England of oolitic limestone; is in excellent condition, unaltered, and firmly in place at its original site, preliminarily surveyed in 1765, monumented two years later and reset in 1902 during the 1900-03 Resurvey of the Maryland-Pennsylvania boundary. It is significant on the national and state levels primarily as one of 135 original monuments in the thematic group series of some 248 markers still defining the West Line. Locally, as one of 48 original monuments marking the present Washington/Franklin-Fulton county boundary, it is also significant as one of a diminishing number of objects and structures with a visually identifiable relationship to the colonial and Civil War heritage of these counties.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Milestone No. 108(112) marks Mason and Dixon's 108th horizontal mile west of the northeast corner of Maryland, the beginning of their 230.228-mile West Line. It is an original milestone of 1767, in excellent condition, unaltered, and remains at its original site, preliminarily surveyed in 1765, monumented two years later, and reset more securely in 1902 during the 1900-03 Resurvey of the Maryland-Pennsylvania boundary.

The area here ^{sparsely settled;} ~~is~~/rural; hilly, with broad strands of deciduous trees and a liberal sprinkling of cedars, mostly along the tributaries flowing into the Conococheague, less than a half mile south. The site is within Election District 13 of Washington County, MD, and Montgomery Township of Franklin County, PA; about 1/4 miles northeast of the scattered settlement of Fairview, MD; at a point about 1500 feet northwest of ^{Wishard Road and} ~~the~~ David Lowry farmhouse (on the south side of Wishard Road), west of the point where two small streams converge, on a grassy hillside bordered by a grove of cedars. It cannot be seen from any road, but easily from nearby, all seasons, and seems well protected.

The milestone, as with all original Mason and Dixon West Line monuments, is an embellished oolitic limestone post with a low pyramidal top, quarried and carved in England, and probably ^{originally} measured about 12 inches ^{square} by about 4 or more feet long, cut to stand about 3 feet high with the base left rough-cut for setting into the ground. The distinguishing decorative features are the vertical fluting with horizontally-fluted margins on all four sides, and the Roman capital letters P on the north side facing Pennsylvania and M on the south side facing Maryland, each V-sunk in the center of a plain shallow circle panel near the top. Because part of the foundation now shows, this milestone presumably stands about as reset in 1902, 18 inches above the concrete foundation, about 12 inches square. The letters and circle panels are clear and intact; most fluting and margins remain clear and intact except for minor chips along all edges and top corners; ^{quite flat} ~~the top planes and fluting are~~ barely discernible from weathering; and all surfaces are mottled with bits of lichen.

(see Thematic Group National Register nomination form for full descriptions of original Mason and Dixon monuments and the 1900-03 Resurvey method of resetting them)

STATEMENT OF SIGNIFICANCE

Milestone No. 108(112), a particularly fine example of an original milestone, is significant on the national and state levels primarily as one of 135 original Mason and Dixon monuments in the thematic group series of some 248 markers still defining their 230.228-mile West Line, the boundary later known as the Mason-Dixon Line, famous for its historical impact and innovative survey methods. The site was preliminarily surveyed in 1765 and monumented two years later, where it remains in place, reset more securely in 1902 during the 1900-03 Resurvey of the Maryland-Pennsylvania boundary. Locally, as one of 48 original monuments marking the present Washington/Franklin-Fulton county boundary (10 crownstones; 38 milestones), No. 108(112) is also significant as one of a diminishing number of objects and structures with a visually identifiable relationship to the colonial and Civil War heritage of these counties.
