Description of Property and Justification: *(Please attach map and photo)*

14204 Daley Road does not appear eligible for listing in the NRHP under Criteria A, B, C or D. The resource does not appear significant for its method of construction or architecture. The duplex type is a common building type in Washington County and originated with the migration of Pennsylvania Germans into Washington County during the 18th and nineteenth centuries. Alterations have been limited to the property's setting, where a three-bay concrete-block garage represents the sole outbuilding and was built in close proximity to the dwelling. Archival research conducted at local and county libraries and historical societies, and investigations of cultural resource studies at MHT have produced no information indicating the resource to be significant for its association with significant events or persons, or for its ability to yield information important in historic or prehistory.

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

14204 Daley Road is a brick, two-and-one-half story, four-bay, two-pile, side-gabled, duplex-type dwelling. The duplex type is defined by a four-bay front facade with a pair of front doors in the inner bays. The dwelling faces east. The foundation is stone and the side-gabled roof is covered with slate shingles. An interior chimney is located near the south gable-end. Window and door openings have segmental arches. The window openings contain one-over-one wood sash and modern one-over-one storm sash. An open wrap-around porch encompasses the front (east) and side (south) facades. The porch foundation is concrete block and porch supports are replacement aluminum columns. A two story section extends from the rear façade. The sole outbuilding on the property is a modern concrete block three-bay garage.

Evaluation for:

National Register Maryland Register not evaluated

Prepare a one-paragraph summary statement of significance addressing applicable criteria, followed by a narrative discussion of the history of the resource and its context. (For compliance projects, complete evaluation on a DOE Form – see manual.)

A dwelling is depicted in the general location of 14402 Daley Road on the 1877 Lake, Griffing, & Stevenson atlas and is owned by the "Sitzler Estate." However, a deed search was not performed and it is unclear if the "Sitzler Estate" house is, in fact, 14402 Daley Road. The resource was probably built in the middle to late nineteenth century, based upon the similarities of this dwelling with others in the area.

14204 Daley Road does not appear eligible for listing on the National Register of Historic Places under Criteria A, B, C, or D (as specified in 36 CFR 60.4). The resource does not appear significant for its method of construction or architecture (Criterion C). The duplex type is a common building type in Washington County and originated with the migration of Pennsylvania Germans into Washington County during the eighteenth and nineteenth centuries. Alterations have been limited to the property's setting, where a three-bay concrete-block garage represents the sole outbuilding and was built in close proximity to the dwelling. Archival research conducted at local and county libraries and historical societies, and investigations of cultural resource studies at MHT have produced no information indicating the resource to be significant for its associations with significant events or persons, or for its ability to yield information important in prehistory or history (Criteria A, B, and D).
