Approximate date Ca. 1910

Along the east side of Village Mill Drive is this two story, three bay frame house covered with asbestos shingle siding. It rests on concrete block foundations. At the front elevation, there are three bays at the first story arranged window, door, window. At the second story there are only two windows. This configuration is often associated with early 20th century vernacular construction in Washington County and the surrounding area. Most windows have two over two pane sash within architraves with flat molded tops. This type of window trim is also associated with early 20th century construction. Across the front is a hip roofed porch supported by four turned posts. A one story shed extension at the rear may be an enclosed porch. Extending from inside the west gable end is a brick chimney with a corbeled top. A frame gable roofed shed is located behind the house. Immediately south of the house is an alley right of way, unpaved.

This property is representative of Maugansville's main growth period in the early 20th century.
