Approximate date Ca. 1910

On the west side of Village Mill Drive is this two story, three bay L-shaped frame house, covered with aluminum siding. The facade arrangement consists of a window, door, window configuration at the first story and only two windows at the second story level. This arrangement is associated with turn of the century vernacular frame buildings in Washington county and the surrounding area. Windows have either two over two or single pane sash. A porch across the front is supported by square posts. A one story side porch has been enclosed. A brick chimney with a corbeled top is located inside the south gable wall. These features suggest a construction date in the early 1900s. The house is typical of Maugansville's architecture.
