Approximate date Ca. 1910-1920

This frame gable fronted store or shop is located on the north side of Eby Lane, behind the house located at 13821 Village Mill Drive. The building is one and a half stories high and covered with German siding which appears to be original. A shed roofed porch extends across the front and beyond to shelter a window bay. The porch is supported by square posts. Windows have six light sash. The roof is covered with corrugated sheet metal and a brick stove chimney extends from inside the northeast corner. A one story shed extension is attached to the rear of the building. A wooden covering, which appears to be plywood, covers what may have been an opening at the upper level near the center of the east wall. The building has had very few alterations and is important as one of Maugansville's few small shops and commercial buildings.
