Approximate date Ca. 1930s

This two story three bay frame house appears to date from the 1930s. It rests on stone foundations and is covered with aluminum siding. Windows have six over six light sash which are replacements. The house has a window, window, door configuration at the first story and only two windows at the second story level. A two bay entrance porch is supported by square posts, and a side elevation entrance has a bracketed gabled hood. An external brick chimney rises along the north gable wall. The date attribution is based on the chimney type and placement, the lack of overhang at the eaves, the porch configuration, the glass paneled front door and the side door hood. Behind the house is a gable fronted frame garage.
