Approximate date Ca. 1910

This house is located on the west side of Village Mill Drive. It is a two story frame house covered with asbestos shingle siding. It has two side by side central front doors, a carryover Germanic tradition. The main distinguishing feature is a semi-hexagonal projecting bay beneath a projecting gable. Corners of the projecting gable have decorative carved brackets marking the house as a late example with Queen Anne stylistic influence. Windows have single pane sash with architraves with flat molded tops, indicative of the early 20th century. Across the three northerly bays of the front is a porch supported by turned posts with decorative brackets. At least one of the two front doors is original with a large glass pane above a heavy panel. Brick chimneys with corbeled tops are located inside the gable ends. A rock faced block wall encloses the house yard. Farmland from the historic Horst Farm opens immediately behind the house.
