

ABSTRACT
WA-II-007
Aluminum Sided House
Boonsboro Vicinity
private

19th Century

This long narrow one story aluminum sided house is probably of log construction. Alterations to its exterior and the application of the siding make an assessment of its age without further examination impossible.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This one story, five bay aluminum sided house is located on the northeast side of U. S. Route 40-A, southeast of Boonsboro and Maryland Route 67 in Washington County. It is set back slightly from the road's edge and faces southwest.

The aluminum siding may conceal log construction. This building material is suggested by the thick door and window jambs. The building rests on stone and brick foundations. A veneer of brick extends along the front wall foundation. A one story aluminum sided ell extends to the rear. The house is long and narrow with widely spaced windows. They have six over six pane sashes held within narrow frames. The main entrance is located in the center bay of the front elevation.

The roof is sheathed with corrugated sheet metal and plain boxing finishes the eaves. Small brick flues are located inside the end walls.

A porch is reached by a series of steps shelters the three central bays of the front elevation.

The house appears to be in good condition.
