DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

This house is located a short distance east of Maryland Route 66, about three miles north of Boonsboro in Washington County. It faces west or toward the road.

The structure is a five-bay, two-story brick house covered with white stucco. Exterior trim is painted white. An el perpendicular to the front section extends to the rear or east of the house. It appears to have had a double porch along its south elevation which has been enclosed. A two-story, two-bay addition is attached to the east end of the el. The walls are set on local fieldstone foundations most of which have been covered with stucco.

The windows appear evenly spaced along the facade of the house. Six-over-six light double-hung sashes are present in the front section. Other windows are Victorian period two-over-two light sahes or modern single-pane sashes. Small four-light windows in the gables illuminate the attic.

The main entrance is located in the center bay of the front or west elevation. The entrance way is simple, flanked by paneled jambs and topped with a four-light transom.

An inside end chimney of brick covered with stucco rises from the north gable. The roof is of sheet metal which has been painted black. It extends for several inches beyond the house wall at the gables. Wood-work associated with the eaves is very plain and without decorative cornice molding.

In addition to the house, the property contains a large stone end barn with wooden siding painted red and white trim.

The buildings are in excellent condition. A stone set in the facade wall of the house between the second and third bay from the south end is inscribed, May, 1854.

The property contains 121.09 acres.

STATEMENT OF SIGNIFICANCE

The area of significance of this building is its architecture. Although altered, the house provides a dated example of a type of dwelling frequently found in Western Maryland, Pennsylvania and the Cumberland Valley.

Five-bay, center door, I-plan houses of stone or brick many of which have els with double porches are landmarks in the area. They are important contributors to the architectural history and to the character of Western Maryland.
