STATEMENT OF SIGNIFICANCE

This log and frame house, sheathed with aluminum siding is representative of a large group of such structures in Washington County, Western Maryland and Southern Pennsylvania. Log was a major building material in this area during the 18th and 19th centuries. Most of these remaining log dwellings have been sheathed with various forms of siding or bricks. This example was a secondary dwelling on a large farm along the Antietam Creek which belonged to the Schlosser family from the late 18th century till 1884.
