

SITE NUMBER: WA-II-510  
ADDRESS: 133 West Main Street, Sharpsburg, MD  
OWNER/LOT NUMBER/ACCESS: C. Argyl Grove, 378-201, private  
BUILDING DATE: early 19th century?

133 West Main Street is a south-facing, vertically massed, symmetrical, two-story, five-bay, frame, attached, residential structure. It is set directly at the public-right-of-way. The side-gable roof is covered with slate and has open eaves. The first-floor front facade is composed of an entrance in the center bay, windows in the flanking bays, and a hipped-roof portico over the entrance. The portico is supported by slender, chamfered posts, a narrow box frieze, and eastlake brackets. The posts are connected by a flat-cut ornate railing identical in design to that found on 131 West Main. The second floor design consists of windows directly above the corresponding ones on the first floor. The entrance is composed of a paneled door with a rectangular, diamond-pane transom above. All windows are double-hung, two-over-two, wooden sash in a wood frame and have shutters. The building shares its cornice and siding with the attached structure.

A building of the same configuration is noted on the 1877 map of the town as being owned by Mrs. Smith. The 1922 Sanborn notes the extant building, then numbered 206 West Main, as a residential structure on the same lot as its attached neighbor. A henhouse and garage are indicated at the rear of the lot.

The building is within the Western Maryland Geographic Organization, the probable Development Period of Agricultural-Industrial Transition, and falls within the Historic Period Themes of Architecture, Landscape Architecture and Community Planning.
