123 East Antietam Street is a south-facing, horizontally massed, symmetrical, two-story, three-bay, frame, freestanding, residential structure set directly at the public-right-of-way on a corner lot. Set on a stone foundation, the building has been covered with manufactured siding. The side gable roof is sheathed with corrugated metal and open and overhanging eaves. The west-bay entrance is protected by a shed-roof, open porch that runs the length of the building and is supported by modern iron railing. The interior plywood door is protected by an aluminum frame storm door. The window shapes and configurations have been altered in order to receive modern metal-frame windows.

A building at this location is noted on the 1877 map of the town as being owned by J. Marker. The 1922 Sanborn notes the extant dwelling with its extant additions as 316 East Antietam.

The building is within the Western Maryland Geographic Organization, the Development Period of Agricultural-Industrial Transition, and falls within the Historic Period Theme of Architecture, Landscape Architecture and Community Planning.
