BUILDING DATE: mid-late 19th century

209 West Antietam Street is a south-facing, horizontally massed, symmetrical, one-and-a-half-story, three-bay, frame, freestanding, residential structure resting on a stone foundation. It has been extensively altered with the addition of manufactured siding and brick veneer and the construction of a one-story brick wing on the west elevation. The side-gable roof is punctured by a gable dormer. The roof has open and overhanging eaves and gable returns. The front entrance is shielded by a gabled hood and has a six-panel door. Windows are one-over-one, double-hung. There is a shed addition to the rear.

A building of the similar configuration is noted on the 1877 map of the town as being owned by Benner. The structure is noted on the 1922 Sanborn as 109 West Antietam. There is a small frame outbuilding indicated at the rear of the lot.

The building is within the Western Maryland Geographic Organization, the Development Period of Agricultural-Industrial Transition, and falls within the Historic Period Themes of Architecture, Landscape Architecture and Community Planning.
