

SITE NUMBER: WA-II-591
ADDRESS: 119 South Mechanic Street, Sharpsburg, MD
OWNER/LOT NUMBER/ACCESS: Helen Brumbaugh, 769/183, private
BUILDING DATE: mid-late 19th century

119 South Mechanic Street is a west-facing, horizontally massed, two-story, four-bay, frame, attached, residential structure resting on a stone foundation. The building is set directly at the public-right-of-way and has a side-gable roof covered with corrugated metal. The structure, itself, is covered with manufactured siding, except for a portion of the facade where the original siding can still be seen. A hipped-roof, open porch that extends across the entire length of the building is supported by chamfered posts. The facade of the first floor has been extensively remodeled with the addition of a secondary entrance and the diminution of two of the windows. Original fenestration includes double-hung, six-over-six sash windows.

A building of the same configuration is noted on the 1877 map of the town as being owned by Mrs. Moore. The building is noted on the 1922 Sanborn 316 South Mechanic. It was part of a single property that extended south to Antietam Street and to the alleys behind and to the north of it.

The building is within the Western Maryland Geographic Organization, the Development Period of Agricultural-Industrial Transition, and falls within the Historic Period Theme of Architecture, Landscape Architecture, and Community Planning.
