BUILDING DATE: mid-late 19th century

231 West Main Street is a south-facing, symmetrical, two-and-a-half-story, three-bay, frame, freestanding, residential structure. Sited directly at the public-right-of-way on a corner lot, it has a side-gable roof sheathed with standing-seam metal. There is one interior, endwall brick chimney. Eaves are open and overhanging. The east-bay entrance is protected by a hipped-roof, open porch that runs the length of the building and is supported by squared posts connected by a slat railing. The interior door is craftsman in styling and is shielded by a storm door. Windows are set in wood frames, are double-hung, six-over-six sash, and have shutters. There is a one-story rear wing.

A building of the same configuration is noted on the 1877 map of the town as being owned by J. Myers. The 1922 Sanborn notes the extant dwelling as 101 West Main and indicates that the house had a one-story wing at that time.

The building is within the Western Maryland Geographic Organization, the Development Period of Agricultural-Industrial Transition, and falls within the Historic Period Theme of Architecture, Landscape Architecture and Community Planning.
