

SITE NUMBER: WA-II-659
ADDRESS: 102 South Hall Street, Sharpsburg, MD
OWNER/LOT NUMBER/ACCESS: Gerald L Dagenhart, 366-377, private
BUILDING DATE: late 19th century

102 South Hall Street is an east-facing, horizontally massed, symmetrical, five-bay, one-and-a-half-story, frame, freestanding, residential structure. The building is set directly at the public-right-of-way. The standing-seam metal, side-gable roof has three gabled dormers, open eaves, gable returns, and one exterior endwall cinderblock chimney. The entrance is located in the center bay and is protected by an ornate, eastlake, shed-roof, open porch that extends the length of the center three bays. The porch roof is supported by delicate brackets and turned posts connected by a flat-cut railing. Fenestration is composed of single, rectangular, wooden sash, double-hung, six-over-one windows in molded frames. There is ornamental scrollwork in the dormer pediments. A flat-roof, one-story addition extends from the rear of the house.

Based on the style of the house, it appears to date from the late 19th century. The structure is not noted at this location on either the 1877 map of the town or 1922 Sanborn and may have been moved to this site (or was inadvertently left off the map).

The building is within the Western Maryland Geographic Organization, the Development Period of Industrial/Urban Dominance, and falls within the Historic Period Theme of Architecture, Landscape Architecture and Community Planning.
