Is property located within a historic district? no yes Name of district: Town of Boonsboro

Is district listed? no yes

Documentation on the property/district is presented in: Boonsboro Streetscape, Alternate US 40: MD 68 to East of Mousetown Road, Washington County, Maryland, SHA Report 215 (JMA 1999) and Final Report: Architectural and Cultural Survey of Boonsboro and Clear Spring, MD (Mueller 1992).

Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo)*

No. 316 N. Main Street is a two-and-one-half-story, two-bay-wide, hip-roofed, American Foursquare, detached, single family dwelling. The brickwork is laid in a stretcher bond and the house is set on a rusticated concrete-block foundation. The roofline includes a hip dormer on the north, east, and south elevations and an interior chimney. The roof is clad in asphalt shingles. Windows are 4/1 wood sashes. The one-story, three-bay porch has brick piers and a hip roof, and incorporates a port-cochere on the north side. There is a triple window at the first floor paired with single leaf door with transom and sidelights. Off the northwest corner of the house is a hip-roofed, single-car garage. At the rear lot line is a frame, shed-roofed outbuilding, possibly a chicken house, with coved weatherboard siding. The house, typical of early-twentieth-century domestic architecture in Boonsboro, is a contributing resource to the Town of Boonsboro Historic District.

SITE NUMBER: WA-II-826

ADDRESS: 316 North Main Street, Boonsboro, MD

OWNER/LOT NUMBER/ACCESS: private

BUILDING DATE: 1910s-1920s

316 North Main Street is an east-facing, two-and-a-half-story, two-bay, brick, freestanding, American Four Square residential structure. The building, which is set back from the public-right-of-way on a landscaped lawn, rests on a concrete foundation that has molded to resemble rough-cut stone. The brick, which is dark red and grey in color and is forked, is set in a running bond. The hipped roof is covered with artificial shingling and has one chimney at the center and a hipped-roof dormer facing the street. A flat-roof porch extends across the front facade and extends beyond the house to create a porte cochere on the north elevation. The porch is supported by brick piers. The entrance is located in the north bay and is composed of a carved oak surround, an oak-frame door with a large beveled glass panel, and sidelights. Windows are jack arched, double-hung, three-over-one or four-over-one. The first-floor front facade window is set in a group of three.

Although none of the historic maps of Boonsboro extends this far north, the construction of the building can be dated approximately to the period between 1910 and 1924 when other similar buildings in Boonsboro were built.

The building is within the Western Maryland Geographic Organization, the Development Period of Industrial/Urban Dominance, and falls within the Historic Period Theme of Architecture, Landscape Architecture, and Community Planning.
