Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo)*

202 S. Main Street is a one-and-one-half-story, side-gabled, detached, single-family dwelling. The house is faced in stretcher bond brick. There is a shed dormer across the half-story (front and rear elevations) with paired 3/1 wood sash windows; there is a triple window paired with the single-leaf wood door with side lights on the first floor. The shed roof porch extends from the main roof and has brick pier supports; a shed extension across rear of house shelters a porch. There is one interior chimney. This house appears to date to the 1930s. There is a mid-late twentieth century gable-roofed two-car garage and gable-roofed vinyl-sided frame shed west of the garage. This house is a contributing resource to the Town of Boonsboro Historic District.

BUILDING DATE: 1910s-1920s

202 South Main Street is an east-facing, horizontally massed, two-story, two-bay, brick, freestanding, residential bungalow. The building is set directly at the public-right-of-way and rests on a concrete foundation. The bricks, which are red, orange, and green, are set in a white mortar in a running bond. The structure's side-gable, artificial roll roof is punctuated by a long, shed-roof dormer that extends almost the entire length of the house. The roof of the house extends beyond the walls of the building to form the roof of a porch that shields the front facade. The roof is supported by brick piers that are built up from a low brick wall that defines the porch area. The entrance is a six-paneled door flanked by sidelights. All windows except those in the dormer are segmentally arched, three-over-one craftsman style. The windows on the front facade are set in a group of three. The dormer windows are rectangular, paired, three-over-one sash.

Based on the style of the building, it appears to have been built in the 1910s or 1920s. None of the historic maps of the town extend this far south--so the property is not recorded.

The building is within the Western Maryland Geographic Organization, the Development Period of Industrial/Urban Dominance, and falls within the Historic Period Theme of Architecture, Landscape Architecture, and Community Planning.
