

SITE NUMBER: WA-II-957
ADDRESS: 21 St. Paul Street, Boonsboro, MD
OWNER/LOT NUMBER/ACCESS: private
BUILDING DATE: mid 19th century, pre-1877

21 St. Paul Street is a south-facing, two-story, three-bay, frame, freestanding, residential structure. The building, which is set directly at the public-right-of-way, rests on a stone foundation and is covered with manufactured siding. It has a side-gable, tin roof with two chimneys. An aluminum awning extends across the front facade and the center-bay entrance. The door is typical of those found primarily on Potomac Street--the upper portion is glazed and the lower portion has two wood panels. All of the windows are double-hung, two-over-two sash.

The structure is indicated on the 1877 map of Boonsboro. The 1897-1940 Sanborns show the structure as 147 St. Paul Street and do not show any alterations to the building over the years.

The building is within the Western Maryland Geographic Organization, the probable Development Period of Agricultural-Industrial Transition, and falls within the Historic Period Theme of Architecture, Landscape Architecture, and Community Planning.
