Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo)*
 The Park Hall/Locust Grove Rural Historic Landscape is eligible for the National Register of Historic Places under Criterion C, architectural distinction, for its intactness and consistency of agricultural and architectural landscape and form. Of the eleven characteristics that have been developed to identify Rural Historic Landscapes, Park Hall/Locust Grove clearly embodies five: land uses and activities, response to the natural environment, cultural traditions, circulation networks, and buildings, structures, and objects. The landscape is consistently comprised of small-scale agricultural endeavors. In addition, it demonstrates variation of use related to the variation in the landscape, from the dairy farms and smaller plots closer to the base of South Mountain, to the wheat and corn fields further out in the flat lands of the valley. The roads that traverse the district appear to follow their historical routes, illustrating the importance of transportation to the settlement and use of the region. The dwellings and outbuildings display a consistency of form, vernacular style, and period of construction, as well as illustrating the influence of the cultural traditions that the settlers of this area brought with them. Certain aspects of the other six characteristics are also present: patterns of spatial organization, boundary demarcations, vegetation related to land use, clusters, archeological sites, and small-scale elements.

This cluster of buildings at the intersection of Locust Grove Road and Rte. 67 fit into the pattern of farmsteads, dwellings, and agricultural structures found throughout the Park Hall/Locust Grove Rural Historic Landscape. They are consistent in form, use,

and setting. In addition, they further illustrate one of the characteristics of a Rural Historic Landscape: clusters.

Locust Grove has no known association with either events or individuals, thus disqualifying it for eligibility for the National Register of Historic Places under Criteria A and B. Criterion D, information potential, was not evaluated in the course of this study.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Locust Grove is a small community consisting mostly of log houses along the east side of Maryland Route 67 near Boonsboro. A majority of the houses are covered with German siding or composition material and most are small being only two or three bays wide. One or two brick houses are present. Locust Grove Church appears to be the focal point of the group. Most properties include small frame stables and outbuildings.
