**Description of Property and Eligibility Determination:** *(Use continuation sheet if necessary and attach map and photo)*  
 The Park Hall/Locust Grove Rural Historic Landscape is eligible for the National Register of Historic Places under Criterion C, architectural distinction, for its intactness and consistency of agricultural and architectural landscape and form. Of the eleven characteristics that have been developed to identify Rural Historic Landscapes, Park Hall/Locust Grove clearly embodies five: land uses and activities, response to the natural environment, cultural traditions, circulation networks, and buildings, structures, and objects. The landscape is consistently comprised of small-scale agricultural endeavors. In addition, it demonstrates variation of use related to the variation in the landscape, from the dairy farms and smaller plots closer to the base of South Mountain, to the wheat and corn fields further out in the flat lands of the valley. The roads that traverse the district appear to follow their historical routes, illustrating the importance of transportation to the settlement and use of the region. The dwellings and outbuildings display a consistency of form, vernacular style, and period of construction, as well as illustrating the influence of the cultural traditions that the settlers of this area brought with them. Certain aspects of the other six characteristics are also present: patterns of spatial organization, boundary demarcations, vegetation related to land use, clusters, archeological sites, and small-scale elements.

This mid-nineteenth-century two-story, four-bay six course common bond brick masonry structure sits on a stone foundation, and is capped by a side-gabled roof sheathed with asphalt shingles. There is a mid-twentieth-century two-story two-bay brick

addition on the eastern end. There are two center entries, with one-leaf wood paneled doors. The fenestration is comprised of 6/6 wood sash, and some 2/2 wood sash. The windows have splayed lintels. There is a molded cornice on the main block of the house with returns. There is a one-story rear shed addition. There are various outbuildings, including a bank barn. This house and farmstead is consistent with the form, setting, and landscape found throughout the Park Hall/Locust Grove Rural Historic District.

The Park Hall/Locust Grove Rural Historic Landscape has no known association with either events or individuals, thus disqualifying it for eligibility for the National Register of Historic Places under Criteria A and B. Criterion D, information potential, was not evaluated in the course of this study

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This farmstead includes a two story four bay brick house, painted red with a two story two bay frame addition covered with composition siding. The addition is said to have been built about 1925. The brick section has common bond at all elevations, with, generally, six courses of stretchers between header rows. Two front doors are placed side by side in the center bays. Each door has four panels. Windows have six over six pane sashes. The house would appear to date from the third quarter of the 19th century. Also present is a large frame bank barn and various frame domestic and agricultural out-buildings.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This farmstead is an example of late 19th and early 20th century rural architecture. Typically the brick house is painted red. The custom of having two front doors is attributed to people of Germanic extraction.
