BUILDING DATE: early 20th century

67 West Water Street is a north-facing, horizontally massed, symmetrical, two-and-a-half story, three-bay, freestanding, frame residential structure. The building is covered with manufactured siding. The side gable roof, which appears to be covered with slate, has one center chimney. The fenestration consists of single, rectangular, wooden sash, double-hung, two-over-two windows. The center-bay entrance is protected by a hipped roof porch that runs the length of the building and is supported by turned wood posts. The entrance has a wood frame and is topped by a glazed transom. The house has a rear porch addition.

The property is located outside the original town limits, but within the limits indicated on the 1875 map. The vacant property was owned at that time by B.C. Bishop.

The building is within the Western Maryland Geographic Organization, the Development Period of Industrial/Urban Dominance, and falls within the Historic Period Theme of Architecture, Landscape Architecture and Community Planning.
