

SITE NUMBER: WA-V-287

ADDRESS: 160 Cumberland Street, Clear Spring, MD

OWNER/LOT NUMBER/ACCESS: David E. Wiles, 710/406, private

BUILDING DATE: 19th century, pre-1877

160 Cumberland Street is a south-facing, horizontally massed, two-story, four-bay, brick, attached, residential structure. The building is set directly at the public-right-of-way on a stone foundation. The brick, which has been painted red, is laid in a common bond. The side-gable roof is covered with artificial shingles and has a single chimney. A flat-roof Colonial Revival porch extends across the facade. The entrance, located in the center bay, is set in a segmental arch and is comprised of an oak door with a large glazed area over a small wood panel. The windows are also set in segmental arches that have a double row of brick and are very similar to ones directly across the street at 159 Cumberland. The first floor has a pair of windows that are double-hung, one-over-one sash with leaded glass, diamond-pane upper sash. The second floor windows are also double-hung, one-over-one, but are not decorative. They have shutters.

A building is noted at this site on the 1877 map of Clear Spring. The structure is indicated on the 1922 Sanborn as 207 Cumberland. According to the present owner, the interior of the building was remodeled during the 1910s by the Angle family, an earlier owner of the property. This was confirmed during an oral history conducted in June 1992 with Maria Angle, the daughter of man who completed the work. The remodeling also included the reconfiguration of the front facade windows.

The building is within the Western Maryland Geographic Organization, the probable Development Period of Agricultural-

WA-V-287

Industrial Transition, and falls within the Historic Period Theme
of Architecture, Landscape Architecture, and Community Planning.
