

SITE NUMBER: WA-V-307

ADDRESS: 110 Cumberland Street, Clear Spring, MD

OWNER/LOT NUMBER/ACCESS: Jane A. Stansbury, 237/515, private

BUILDING DATE: early 19th century, pre-1838

110 Cumberland Street is a south-facing, horizontally massed, two-story, five-bay, brick, attached, residential structure. Set at the public-right-of-way, the building is composed of two components. It is laid in running bond on the first floor and flemish bond on the second and is painted kelly green and white. The side-gable roof is contiguous with 112 Cumberland Street. It is sheathed in artificial roll and has a bridged chimney. An open shed-roof porch extends over the sidewalk and includes the west three bays of the building. Its roof structure is supported by slender columns resting on brick piers. The glazed door is flanked by shutters and is topped by a transom with a cross pattern. The windows on the first floor of the west section are double-hung, one-over-one with the upper sash having leaded glass diamond panes. The windows match those found on 160 Cumberland Street. The second floor windows are double-hung, two-over-two sash. Windows in the east section are six-pane fixed sash on the first floor and two-over-two on the second.

According to a history of the site prepared by Hilda Cushwa for the Clear Spring Historical Society, this building rests on parts of original lots 40 and 42. In 1870, a deed conveyed a brick house and store to Daniel and David Flory whose descendants still own the building. Apparently the Flory family had occupied or rented the building prior to that date, because a pre-Civil War tax bill for the structure notes it as D. Flory's Hotel. The building is noted on the 1877 map of Clear Spring as being the property of

D. Flynn [sic]. The 1922 Sanborn clearly illustrates that the current building is comprised of two buildings that have been joined. The 1922 map shows a brick structure with a narrow brick building to its east within the same property line. They were numbered separately as 114 and 115, respectively. The map also notes a stone outhouse directly behind 114.

The building is within the Western Maryland Geographic Organization, the probable Development Period of Agricultural-Industrial Transition, and falls within the Historic Period Theme of Architecture, Landscape Architecture, and Community Planning.
