Description of Property and Eligibility Determination: (Use continuation sheet if necessary and attach map and photo)

This 2 1/2 story, side gabled frame single family residence is located on the southwest corner of MD 63 and US 40 (the National Pike). It has a one-story full width porch with simple wood columns. The entrance door is solid wood with three lights. The windows are one-over-one with exterior aluminum storms. The shingles are asphalt. The exact date of construction is not known but it was probably built after 1912 as it does not appear on the 1912 USGS map. According to a local resident who grew up in the community of Huyette, this structure was moved to its present location when MD 63 was realigned in the early twentieth century. A two-story outbuilding and a concrete block garage are located in the rear of the property.

Although associated with the Huyett community and the National Road, this structure does not retain enough integrity to be eligible for the National Register of Historic Places.
