Dr. William J. Catlin House ("Scott Free")

Architectural Survey File

This is the architectural survey file for this MIHP record. The survey file is organized reverse-chronological (that is, with the latest material on top). It contains all MIHP inventory forms, National Register nomination forms, determinations of eligibility (DOE) forms, and accompanying documentation such as photographs and maps.

Users should be aware that additional undigitized material about this property may be found in on-site architectural reports, copies of HABS/HAER or other documentation, drawings, and the "vertical files" at the MHT Library in Crownsville. The vertical files may include newspaper clippings, field notes, draft versions of forms and architectural reports, photographs, maps, and drawings. Researchers who need a thorough understanding of this property should plan to visit the MHT Library as part of their research project; look at the MHT web site (mht.maryland.gov) for details about how to make an appointment.

All material is property of the Maryland Historical Trust.

WI-185
Dr. William J. Catlin House
Whitehaven
Private

1901

The Dr. William J. Catlin house is a good example of a dated early twentieth century (1901) farmhouse with its largely intact two-and-a-half, five-bay, cross-gabled principal elevation and gable ends facades. The date is scratched on an inside surface of the extant brick chimney. An intact two-story semi-octagonal bay pavilion, partially sheathed with fishscale shingles, distinguishes the south gable end. The house is also significant for many original interior finishes common to turn of the twentieth century rural domestic architecture of the lower Shore. Most notable is the closed stringer staircase along with bulls-eye block door and window surrounds. With its location on the edge of Whitehaven, the Dr. William J. Catlin house and its surrounding acreage contribute to the village's nineteenth century character and the property provides an important visual anchor.

Built in 1901 by Elizabeth A. G. Catlin for her son, Dr. William J. Catlin, this two-and-a-half story dwelling was left to him in her will of 1908. In her words she stated,

I give and devise unto my said son William J. Catlin for his natural life but no longer and at his death unto his son William G. Catlin in fee simple....all that parcel of land belonging to me whereon said William J. Catlin now resides situate in said village of White Haven"

True to Elizabeth's bequest, the property remained in the hands of her son, William J. Catlin, and then her grandson, William G. Catlin, until he sold the property in 1930 to Raymond T. Robertson, in whose family the property remained for thirty-four years.

HISTORIC CONTEXT INFORMATION

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

The Dr. William J. Catlin house, now known as the Scott house, stands at the end of a cedar tree-lined lane that intersects Whitehaven Road on the edge of the community of Whitehaven, Wicomico County, Maryland. The two-and-a-half story frame house faces east with the gable roof oriented on a north/south axis.

Dated to 1901 by an inscription in the south chimney stack, the two-and-a-half story, center hall, single-pile frame house is supported on a low brick foundation, and the exterior is clad with plain weatherboards. The steeply pitched asphalt shingle roof has extended eaves with exposed and decorated rafter feet. Attached to the back of the main block is a two-and-a-half story kitchen.

The east (main) elevation is a symmetrical five-bay elevation with a restored turned post porch sheltering the center three bays. The entrance retains an elaborate etched glass front door that has decorative square panels below the lock rail. Elaborate Victorian door knobs and face plates remain in place. Fixed above the door is a narrow transom fitted with patterned translucent glass. The window openings on the first and second floors are filled with single-pane sash. Centered on the roof is a steeply pitched cross-gable pierced by a triangular colored glass window surrounded by fishscale shingles. Rising through the roof are two chimney stacks. The north stack has been rebuilt to serve a wood stove insert.

The north gable end is marked by a pair of single-pane sash windows that light the first and second floors, and a single window pierces the upper gable. The south gable end, on the other hand, is extended by a two-story bay window. The extended eaves above the bay retain decorative Victorian sawnwork.

The two-and-a-half story rear wing is three bays across by one room deep, and shingle-story enclosed shed roofed sections extend the kitchen to each side. Single-pane sash windows light the first and second floors, and dormers have been added to the roof.

The interior has survived with a large portion of its turn of the twentieth century woodwork intact. The center hall is fitted with a turned baluster staircase with a boldly turned newel post and a diagonal molded stringer. Bulls-eye corner block surrounds frame the door openings. A brick hearth has been added to the north room, and the mantel has been removed from the room south of the hall. The south bedroom on the second floor has a period mantel with turned spindle columns that rise to a scroll decorated frieze. Bulls-eye block surrounds frame four-panel doors. The enclosed attic stair rises behind a beaded board door.

Prepare both a summary paragraph of significance and a general statement of history and support.

The Dr. William J. Catlin house is a good example of a dated early twentieth century (1901) farmhouse with its largely intact two-and-a-half, five-bay, cross-gabled principal elevation and gable ends facades. The date is scratched on an inside surface of the extant brick chimney. An intact two-story semi-octagonal bay pavilion, partially sheathed with fishscale shingles, distinguishes the south gable end. The house is also significant for many original interior finishes common to turn of the twentieth century rural domestic architecture of the lower Shore. Most notable is the closed stringer staircase along with bulls-eye block door and window surrounds. With its location on the edge of Whitehaven, the Dr. William J. Catlin house and its surrounding acreage contribute to the village's nineteenth century character and the property provides an important visual anchor.

Built in 1901 by Elizabeth A. G. Catlin for her son, Dr. William J. Catlin, this two-and-a-half story dwelling was left to him in her will of 1908. (LJG 1/358) In her words she stated,

I give and devise unto my said son William J. Catlin for his natural life but no longer and at his death unto his son William G. Catlin in fee simple....all that parcel of land belonging to me whereon said William J. Catlin now resides situate in said village of White Haven"

True to Elizabeth's bequest, the property remained in the hands of her son, William J. Catlin, and then her grandson, William G. Catlin, until he sold the property in 1930 to Raymond T. Robertson, (IDT 164/349) in whose family the property remained for thirty-four years. (JWTS 588/186)

Due to the distinctive architectural character of this house along with its pivotal location, the property deserves listing in Category A, which identifies properties that must be preserved since they are historically significant and exhibit many good architectural details representative of a period of architectural design and at the same time contribute uniquely and superlatively to the character of the historic district.
