Hitch-Williams House  
Nanticoke Road (MD 349)  
Salisbury  
EDEN quad

Early 19th Century

The Hitch-Williams house is a very plain early 19th century frame house, four bays long, two stories tall, with a one-story wing. The entire structure is covered with brown shingles and the windows are boarded to keep out vandals. It stands on a brick foundation and has a brick chimney on both ends of the main portion. Behind the two-bay long wing is a leanto.

This type of house is fairly common in Wicomico County, although the interior is not visible to the un-announced visitor. The house is unoccupied, but in fair condition.
